If only we could, we surely would! On the other hand, using file can actually save you money. We have no file size limit. Files transferred the old-fashionedway tend to pile up and be forgotten about, eventually costing you money in data storage fees. Alternatively you can choose to share your download links onblogs, forums and social networking sites. Any file in any format can be uploaded and downloaded for free. This is easy, fast and reliable filehosting! You don'tneed any kind of premium-accounts. So try our free and simple filehosting service now. You can upload any type of file (movies, music, documents, images,zip files and more). Simply upload your file and share the link. There are no restrictions on the number of times a file can be downloaded. The cost of that datatransfer is covered by your internet service or the data plan on your phone. Our service is completely free for everyone. Why pay storage fees for a file that youjust wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. File is free touse with no gotchas and no hidden fees. Using file, you can circumvent those limits without paying to upgrade your team chat service. You decide who youwant to share your files with. Keep your files private, or send your download links only to friends or family. When you use file, you avoid storing the fileyou're sending in your cloud storage or mail server. Unfortunately, we can't make that part free. No account or credit card is required to get started. Your walletwill be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Files can be downloaded from any computer from our high speed servers. You don't need any special softwareinstalled to be able to download your files. filehosting provides an easy possibility for you to send large files to your friends. You can give this down
